

Impressively precise:
Actro 5D drawer runner

Art of perfection:
AvanTech drawer system

Technik für Möbel

Hettich

Benefits at a glance: Actro 5D drawer runner

For furniture quality you can see and feel:

- Exceptional stability, also from large and heavy pull-outs
- Unequalled running action – smooth and quiet
- Precision, tool-less 5 way adjustment for perfect front panel alignment

For discerning furniture design:

- Load capacity up to 80 kg for innovative furniture design
- Push to open Silent – opens without handles, closes with the convenience of Silent System

For efficient furniture production:

- Actro 5D runners can be used for wooden drawers and the AvanTech drawer system
- Optional depth adjustment simply clips on
- ArciTech drawer system can be used because the carcass drilling pattern is identical

Benefits at a glance: AvanTech drawer system

For furniture quality you can see and feel:

- Exceptional stability, also from large and heavy pull-outs
- Unequalled running action – smooth and quiet
- Precision, tool-less 5-way adjustment for perfect reveal alignment

For excitingly attractive furniture design:

- Purist drawer side profiles – no holes, no cover caps
- High quality aluminium
- Finely and precisely rounded edges
- Load capacity up to 80 kg for innovative furniture design
- Push to open Silent – opens without handles, closes with the convenience of Silent System

Hettich

For efficient furniture production:

- No need to rout bottom panel
- Actro 5D drawer runners and catches can also be used for wooden drawers
- Optional depth adjustment simply clips on
- ArciTech drawer system can be used because the carcass drilling pattern is identical

Actro 5D runner platform for wooden drawers and AvanTech double walled drawer system

The Actro 5D platform concept for full flexibility with hardly any complexity:

- ▶ Identical runners and catches for wooden drawers and the AvanTech drawer system
- ▶ Flexibility in catering to furniture designs and customer wishes
- ▶ Standard carcase drill holes
- ▶ Choice of load capacity either up to 40, 60 or 80 kg
- ▶ High lateral stability and excellent running performance even under high load

Drawer runners for wooden drawers

► Actro 5D drawer runners

Impressively precise:

The Actro 5D drawer runner is simply the perfect choice for unique furniture design, narrow reveals and large front panels. Adjusting in 5 directions, front panel reveal alignment meets the most exacting demands. Excellent running

performance and incredible stability provide supreme quality you can feel and hear. Actro 5D is ideal for wooden drawers as well as for the AvanTech drawer system.

Unequalled running action, smooth and synchronised: Actro 5D.

Extremely narrow reveals and precision front panel alignment from 5-way adjustment.

Exceptional vertical and horizontal stability, loading capacity up to 80 kg.

Handleless elegance, utmost convenience: with Push to open Silent.

Simple differentiation: identical runners for AvanTech and wooden drawers.

Drawer runners for wooden drawers

► Actro 5D and AvanTech

Push to open Silent for wooden drawers with Actro 5D and AvanTech:

- Mechanical principle: 100% convenience, zero cables
- Opens almost by itself, closes quietly and gently
- Adjustable opening force, triggering sensitivity and front panel gap
- Upgradeable without modifying drawers
- Upgradeable on wooden drawers with a base thickness of at least 8 mm

Setting Push to open Silent opening force

For the inner values:

The AvanTech drawer system consistently carries first class furniture design through to the inside of furniture. It fascinates with incredibly sleek lines and minimal edge rounding. No cover caps or holes in the slimline 13 mm drawer side profiles.

In combination with the Actro 5D drawer runner, it gives furniture absolute perfection you can see, feel and hear. The Actro 5D drawer runner is the basis for confident furniture design: 5-way adjustment for ultimate precision.

Extremely stable up to 80 kg. Large format, perfectly aligned front panels with narrow reveals produce fascinating effects. AvanTech opens up new options in designing furniture. Also handleless with silent and soft closing: with Push to open Silent.

reddot award 2016
winner

Storage space in its finest form: for fascinating furniture design. Load capacity up to 80 kg: for creating kitchens with plenty of space.

The alternative to wooden drawers: slim, classy, without visible plastic parts.

Systematic purism: drawer side profiles in 5 heights. No holes or cover caps.

For accurate reveals and perfectly aligned front panels: precision 5-way adjustment.

Dimensional drawing

- Trimmed width (B) = inside carcase width (LB) - 40
- Trimmed depth = nominal length - 27

AvanTech double walled drawer system

- ▶ Interior organisation system for pot-and-pan drawers and internal pot-and-pan drawers
- ▶ Aluminium, silver anodized

- ▶ High quality interior organisation system in elm effect and metal
- ▶ From system height of 187 mm
- ▶ Variable in width
- ▶ All carcase widths are possible by combining individual articles
- ▶ An anti-slip mat must be used

OrgaStore 260 frame with one divider

- ▶ Width 250 mm, length 250 mm, height 138 mm
- ▶ Elm effect with magnets

Set comprises:

- ▶ 1 frame, elm effect with magnets
- ▶ 1 cross partition, powder coated steel, silver

Order no.	PU
9 212 903	1 set

OrgaStore 260 frame with four dividers

- ▶ Width 250 mm, length 250 mm, height 138 mm
- ▶ Elm effect with magnets

Set comprises:

- ▶ 1 frame, elm effect with magnets
- ▶ 4 cross partitions, powder coated steel, silver

Order no.	PU
9 212 904	1 set

OrgaStore 260 basic divider

- ▶ Width 2 mm, height 138 mm
- ▶ Powder coated steel, silver

Set comprises:

- ▶ 2 basic dividers

Installing fixing element

Gently opened and extremely convenient: with the Easys electromechanical opening system, drawers open all by themselves in response to a light press on the front panel. And thanks to Silent System, they can be closed again at any time just as smoothly.

Ideal for purist, handleless design – e.g. for large, heavy pull-outs.

Unobtrusive and saving space, Easys is located behind the drawer rear panel to make full use of storage space.

A cable can optionally be fitted to avoid collisions in face angle applications.

AvanTech, ArciTech, InnoTech, InnoTech Atira, wooden drawers: the Easys electromechanical opening system can be used in many different applications.

Used alone

Technical information
► Quality criteria

146

- For AvanTech, ArciTech, InnoTech, InnoTech Atira and Actro 5D / Quadro with wooden drawers
- Used alone

Example application

- Ideal for using waste bin
- Can be added at any time
- Few components for easy installation: connects directly to power supply unit (no more than one drive unit per power supply unit)
- No addressing necessary
- No synchronisation possible
- Not compatible with electrical system components on pages 102 - 110

Set comprises:

- 1 drive unit
- 1 mounting bracket
- 1 power supply unit
- 1 mains power cable for Europe (type C) or UK (type G)
- 1 power supply unit holder
- 4 buffers for drilling into the front panel
- 1 drilling jig for drawer front
- 1 drilling depth limiter
- 1 hole marking jig
- Fixing material
- 1 rear panel bracket 11 mm (only for ArciTech with steel rear panel)

Article	Order no.	PU

- Required when using two sensors

Order no.	PU
9 084 794	1 ea.

Cable for corner solution

- Prevents drawers or pot-and-pan drawers from being opened at the same time in diagonally opposite carcasses

Order no.	PU
9 084 790	1 ea.

- For AvanTech, ArciTech, InnoTech, InnoTech Atira and Actro 5D / Quadro with wooden drawers
- System components

Button for collision guard

- Collision protection: prevents drawers or pot-and-pan drawers from being opened at the same time in adjacent or diagonally opposite carcasses with hinged doors, tall unit pullouts etc.

Order no.	PU
9 105 850	1 ea.

Set of cable ties

- Set comprises:
- 50 self adhesive base plates
 - 50 cable ties

Order no.	PU
9 109 834	1 set

Easys carcass drilling jig

- For drilling the points at which the profile mounts or mounting brackets are attached
- For marking the through hole for routing the cable down to the bottom

Order no.	PU
9 086 400	1 ea.

► Summary of example applications

For AvanTech, ArciTech, InnoTech, InnoTech Atira and Actro 5D / Quadro with wooden drawers
Standard carcass

114 - 115

For AvanTech, ArciTech, InnoTech and InnoTech Atira Waste system behind panels - for mounting on bottom panel

116 - 117

Fur AvanTech, InnoTech and InnoTech Atira Waste system behind front panels - InnoTech / InnoTech Atira with high wooden rear panel

118 - 119

For AvanTech, ArciTech, InnoTech, InnoTech Atira and Actro 5D / Quadro with wooden drawers
Overhead installation

120 - 121

For AvanTech, ArciTech, InnoTech, InnoTech Atira and Actro 5D / Quadro with wooden drawer
Collision protection

122 - 125

- For AvanTech, ArciTech, InnoTech, InnoTech Atira and Actro 5D / Quadro with wooden drawers
- Standard carcass

ArciTech

AvanTech

Wood drill bit with cylindrical shaft

► Sleeve drill

Sleeve drill

- Minimal drill wear as the drill bit does not come into contact with the jig
- Precision drill bit guidance through sleeve
- Adjustable drill depth stop
- Can be used with Accura, Practica, Lift Advanced drilling jigs

Page reference:
► For Practica drilling jig, see page 138

Description	Diameter mm	Order no.	PU
Sleeve drill	10	0 078 096	1 ea.
Spare drill bit without sleeve	10	0 079 005	1 ea.

Drilling jigs

- Practica
- For front panel connector

Practica 250 for AvanTech

For drilling holes for connecting the front panel to AvanTech:

- Drawer / pot-and-pan drawer
- Plastic
- Hardened steel drilling bushes with depth setting ring for 10 mm drill bits

Order no.	PU
9 219 328	1 ea.

Aligning the drilling jig up against the workpiece

AvanTech H = 101/139

AvanTech H = 187

AvanTech H = 251

Drilling jigs

- Practica
- For front panel connector

Practica 260 for AvanTech

For drilling holes for connecting the aluminium front panels to AvanTech:

- Plastic
- Hardened steel drilling bushes for 3.2 mm drill bit

Order no.	PU
9 219 352	1 ea.

Aligning the drilling jig up against the workpiece

AvanTech H = 101

AvanTech H = 187

Drilling jigs

- Practica
- For rear panel connector

Practica 270 for AvanTech

For drilling AvanTech wooden rear panels:

- Drawer side profile connectors
- C hook mount
- Drawer side profile heights 101 / 139 / 187 / 251 mm
- Plastic
- Hardened steel drilling bushes for 4 mm and 10 mm drill bits
- C hook drilling with 10 mm drill bit and depth setting ring

Order no.	PU
9 219 349	1 ea.

Aligning the drilling jig up against the workpiece

AvanTech H = 101

AvanTech H = 101

Drilling jigs

- Practica
- For rear panel connector

Practica 290 for AvanTech

For drilling the AvanTech wooden drawer rear panel:

- Drawer side profile connectors
- C hook mount
- Drawer side profile height 77 mm
- Plastic
- Hardened steel drilling bushes for 4 mm and 10 mm drill bits
- C hook drilling with 10 mm drill bit and depth setting ring

Order no.	PU
9 219 351	1 ea.

Aligning the drilling jig up against the workpiece

AvanTech H = 77

AvanTech H = 77

Drilling jigs

- ▶ BlueJig FB
- ▶ For AvanTech

BlueJig AvanTech 100

For marking hole centre for attaching the drawer front connector to AvanTech:

- ▶ Drawer height 101 mm
- ▶ Steel
- ▶ Drawer front connector with centring tips

Set comprises:

- ▶ 2 BlueJig AvanTech 100 (right / left)

Order no.	PU
9 219 353	1 set

Aligning the center punch up against the drawer

BlueJig AvanTech 200

For marking hole centre for attaching the drawer front connector to AvanTech:

- ▶ Pot-and-pan drawers, height 139 mm, 187 mm and 251 mm
- ▶ Steel
- ▶ Drawer front connector with centring tips

Set comprises:

- ▶ 2 BlueJig AvanTech 200 (right / left)

Order no.	PU
9 219 354	1 set

Aligning the center punch up against the drawer

- ▶ BlueJig Actro 5D
- ▶ For fitting Actro 5D to AvanTech and wooden drawers

BlueJig Actro 5D

- ▶ For drilling the holes for the C hook on Actro 5D runners for AvanTech and wooden drawers
- ▶ Positions
 - Connectors for AvanTech, wooden drawers and pull-out shelves
 - C hook for attaching runner to the rear panel
 - Rear plug
 - Front panel drilling
 - Rear tilt adjuster
- ▶ Aluminium with hardened drill bushes made of steel
- ▶ Please order twist drill accessories separately

Wooden drawers with grooved bottom panel

Quality that meets all the demands

The quality of the drawer systems is monitored continuously. Hettich fittings comply with the national and international quality standards of the markets our customers operate in. The diagrams below show some of the tests Hettich fittings are required to pass.

Application area

Hettich drawer systems are suitable for use in living room, kitchen, bathroom and office furniture both in the home and business environment.

Loading capacity and pull-out guard

The loading capacity indicated (to DIN EN 15338) is understood to mean the weight of the drawer itself, including contents, in kg. The applicable level is shown on the product. The load capacity refers to a reference length of 500 mm. The load capacity may vary for other nominal lengths. All Hettich drawer systems feature guards to prevent

the drawer from rolling out and being removed unintentionally and meet the requirements of the impact test in a test frame to EN 15338. Fitted in the proper manner, the drawer systems are suitable for furniture defined in EN 14749. The maximum front panel height is governed in particular by material, drawer size and drawer runner. Testing is conducted on drawers with a 130 mm front panel height and pot-and-pan drawers with a 300 mm front panel height. We will be pleased to provide any further information you may require.

Corrosion test

Hettich runner systems satisfy the requirements on corrosion defined in DIN EN 15338, 72 hour condensation water test to DIN EN 6270.

Wear test

The fully laden drawer must remain in proper working order after opening and closing it for a defined number of times at a defined test velocity.

Retention-on-opening test

The fully laden drawer is abruptly opened all the way several times at a defined test velocity.

Horizontal load test

Opened all the way, the fully laden drawer is additionally exposed to horizontal strain with a defined lateral force.

Vertical strain test

Opened all the way, the drawer is additionally exposed to vertical strain with a defined eccentric force.

Catalogues and online tools: Informing and realising

All information always at your fingertips.

Our Furniture Fittings and Applications catalogue is printed as a firmly established classic reference work for you.

And our digital catalogue can do even more:

- ▶ The digital search function takes you directly to the product you would like.
- ▶ You can always access the digital information wherever you are with your tablet, PC or smartphone: also in the workshop or on the construction site. Either by app or from our website.
- ▶ The shop function lets you target and select products, configure parts lists and order direct.

To do this, we give you two catalogue formats: the Hettich online catalogue and our digital flip page catalogues which look identical to the printed catalogues. Products can also be placed directly in the online catalogue shopping basket from the flip page catalogue and then ordered.

To the Actro 5D / AvanTech flip page catalogue:

**A film says more than a thousand words:
Our video explains how it's done!**

Use Hettich videos for informing customers:

- ▶ Embed Hettich videos on your own website
- ▶ Forward the links by e-mail or text message
- ▶ Lead customers to the appropriate video when you get enquiries on the telephone

This is where you will find further information on embedding videos and sharing links:

<https://www.hettich.com/short/1c1ecd>

Subject matter quickly communicated – by video!

- ▶ Hettich videos explain products, installation procedures and application in easy-to-understand sequences
- ▶ You will always find the latest videos on the "HettichEnglish" YouTube channel
- ▶ Quickly found: simply enter the Hettich product name into the search box

Click here to go straight to the Hettich YouTube channel:

Hettich takes a responsibility for the world we live in. This awareness defines the strict policy of environmental management that we practise. Our environmental officer has taken personal responsibility for these aspects throughout the group of companies over a period of many years. In addition, a separate environment committee has been established for each production site. We regard statutory provisions as minimum requirements. At significant sites we also implement the stringent EMAS Regulation. And we drive forward developments that in future will help to save even more raw materials and support the necessary endeavours towards sustainability.

Hettich environmental management

In 1996 Hettich started introducing effective environmental management systems under the stringent EMAS Regulation (currently: EC Regulation No. 761/2001, including EN ISO 14.001/2004). This not only enables us to improve

our environmental performance on a broad front but also to achieve a high level of safety which, not least, also benefits our customers. This is why we also require our suppliers to meet the necessary minimum standards of environmental protection, industrial safety, health care and social welfare.

The results achieved in the drawer runner and drawer system product segment at the Kirchlegern operation in Germany illustrate the impressive effects these measures have and verifiably demonstrate our tireless endeavours to translate words into action:

Relief to the environment between 1997 and 2008:

Specific water consumption:	56 percent
Specific power consumption:	21 percent
Specific heat consumption:	84 percent
Specific CO ₂ emissions:	29 percent

Hettich standard for product materials

Hettich underpins its commitment by applying an internal standard for product materials. This ensures that every product – from production to disposal – satisfies all environmental requirements. Hettich products are durable. Appropriately foresighted, our rigorous standards are formulated to ensure that international legislation is also met. This provides a reliable basis for marketing furniture worldwide.

Zero energy building – Hettich Forum

The Hettich Forum building with its neutral energy balance is a shining example of future-proof building design. Photovoltaic panels and a solar collection system providing hot water as well as extensive roof greening and use of rain water underscore this building's overall sustainability

concept in just the same way as the broad use of cellulose insulation material from recycled newspapers, highly efficient heat recovery and the bulb-free lighting concept do.

With the Hettich group of companies having acquired European Commission GreenBuilding Partner status on 5 March 2009, the comprehensive approach demonstrated by the Hettich Forum has also convinced the adjudicating panel of the national "Green Building Award 2009". Hettich received the first prize to be presented in the "New Building" category.

Technik für Möbel

Hettich and the environment: committed to responsible practice, active protection, innovative thinking.

General technical conditions

The assembly advice, screw mounting illustrations and load capacity information provided in this catalogue refer to proper attachment using the screws prescribed by Hettich in a carcass material that reaches a screw pull out resistance of $> 1000 \text{ N}$ under EN 320.

Hettich accepts no responsibility if other materials or attachment methods are used, and the furniture manufacturer must verify the system's load capacity.

The fitting situations shown in this catalogue are only intended to illustrate the possible options. The furniture manufacturer is responsible for ensuring that furniture is designed in compliance with safety requirements defined in the applicable standards. We will be pleased to provide any further information you may require.

General Terms of Sale and Delivery

All deliveries are made and all services are provided exclusively on the basis of our "General Terms and Conditions of Sale and Delivery" which are shown on our website at www.hettich-agb.com.
